PAEC Training Policy & Procedures

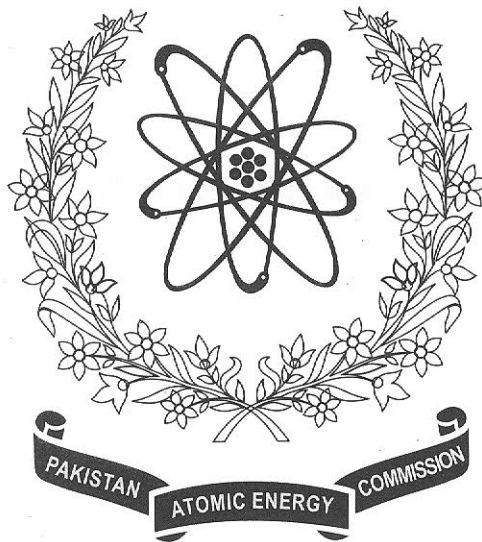

(Rev. 2015)

International Affairs & Training Division
PAKISTAN ATOMIC ENERGY COMMISSION
P.O. BOX NO.1114, ISLAMABAD

PREFACE

Training of manpower is one of the most important areas of PAEC's interest to build a strong human resource in Science & Technology. Every year, a large number of scientists and engineers are sent abroad to attend meetings, conferences, workshops, training courses, etc. Many others are approved to avail opportunities of higher studies, fellowships, scientific visits and expert missions. The rules and regulations for participation in each programme are different. The relevant policies formulated from time to time by the Commission have been undergoing changes and necessary adjustments in order to meet the varying requirements. A number of modifications were introduced in the foregoing training policy after its formulation in 1993. To accommodate all such changes and to remove ambiguities/inconsistencies/anomalies, the training policy was revised in 2014. The General Terms & Conditions and higher studies part of Training Policy has again been revised in 2015 and re-named as "Training Policy & Procedures (Rev. 2015)".

The revised policy will be applicable to all employees of PAEC with matters related to higher studies, Post-Doc research, fellowships, scientific visits, expert missions, training courses, conferences, meetings, workshops, seminars, symposia, posting abroad, jobs, appointments in foreign organizations, bilateral agreements, etc. Further, all such cases will be dealt by International Affairs and Training (IA&T) Division, PAEC HQs. according to the procedures in vogue.

The suggestions to further improve this document will be appreciated.

Table of Contents

Part-A

		Page
CHAPTER-I	General Terms and Conditions	1
CHAPTER-II	Higher Studies	
	A. MS, M.Phil, Ph.D under Scholarships/University Assistantships	4
